## Experience

( 02 )

**2023**

HTML Developer

<https://codegenit.com/> Developed and maintained scalable mobile app features for the HiHello social platform using Node.js, Express.js, and MongoDB. Implemented user authentication, profile management, and real-time messaging features.

**2024**

Front End Developer

<https://www.codegenit.com/> Gained hands-on experience by working on live production projects, including e-commerce platforms and elearning web applications. Built and

maintained full-stack features using React.js (frontend), Node.js + Express.js (backend), and MongoDB/MySQL (database), ensuring responsive, scalable, and secure performance across platforms.

## 2025

MERN Stack Developer

<https://www.brancosoft.com/>

Fulltime

Contributed to the development of live healthcare web applications, delivering end-to-end features including Admin Dashboards, Doctor Panels, Clinic Panels, and Patient Interfaces. Implemented role-based authentication, secure login systems, and data access control using JWT and middleware practices.

## Education & Skills

( 03 )

### SRR Public School - 2019

Successfully completed high school education from SRR Public School in 2019, with a strong foundation in academic excellence and extracurricular participation.
